

Loop and modes:

mode enabled: ME	11/10/14
mode enabled: You	05/02/14
mode enabled: He	03/03/54
mode enabled: She	03/03/12
mode enabled: It	03/03/14
mode enabled: nil	nil

Another example:

ME – mode enabled: ME	11/10/14
You – mode enabled: You	05/02/14
He – mode enabled: He	03/03/54
She – mode enabled: She	03/03/12
It – mode enabled: It	03/03/14
nil – mode enabled: nil	nil

And next another example:

mode is enaabled mode is enaabled mode is enaabled mode is enaabled mode is enaabled mode is enaabled

Attention! This loop cycle is wrong!!!! (last round is not realized)

ME	11/10/14
You	05/02/14
He	03/03/54
She	03/03/12
It	03/03/14

Right realizing loop is :

ME	11/10/14
You	05/02/14
He	03/03/54
She	03/03/12
It	03/03/14
nil	nil

or:

ME	11/10/14
You	05/02/14
He	03/03/54
She	03/03/12
It	03/03/14

nil

nil

Another testings:

A)

ME

11/10/14

You

05/02/14

He

03/03/54

She

03/03/12

It

03/03/14

nil

nil

B)

ME

11/10/14

You

05/02/14

He

03/03/54

She

03/03/12

It

03/03/14

C)

ME

11/10/14

You

05/02/14

He

03/03/54

She

03/03/12

It

03/03/14
