I have no clue, why this example not work. It seems, that problem is in collision with startxtable macro.

1– A

xxxxxxxxxxxx

one	two
alpha	beta

xxxxxxxxxxxx

because this example is partly working:

1– 1 2– 2 3– 3 4– 4 5– 5 6– 6 7– 7 8– 8 9– 9 10– 10 11– 11 12– 12 13– 13 14– 14 15– 15 16– 16 17– 17 18– 18 19– 19 20– 20 21– 21 22– 22 23– 23 24– 24 25– 25 26– 26 27– 27 28– 28 29– 29 30– 30 31– 31 32– 32 33– 33 34– 34 35– 35
